EASY-SET® FLORA™ saved a European cheese producer \$1.2m by improving production consistency and increasing yield

Improving consistency and yield with a direct starter culture

A large Edam producer was using a bulk starter culture combined with a microbial coagulant but sought to improve productivity.

By converting to EASY-SET® FLORA™, our direct starter culture, the customer achieved improved consistency in production and a 1.2% yield increase.

Making the switch to EASY-SET® FLORA™ helped our customer to realize the following gains in productivity:

Annual cost savings of¹

\$1,200,000

What can EASY-SET® FLORA™ do for your business?

Our EASY-SET® FLORA™ series has a more consistent acidification profile than do bulk starters, offering a more consistent performance during production.

Improved consistency leads to increased efficiency and fewer variations in the final product.

Streamline your process to streamline your outcomes, giving your customers the best in every batch.

Value levers
\$/ton of cheese

¹ Cost saving is calculated with the input costs from calendar year 2021/2022.
