Currently, two of the elected members of the Board of Directors are affiliated with PAI partners, which manage and advise the funds that own our former major shareholder, Financière Star 1 S.A., while the four other board-members elected by the shareholders, including the chairman, are independent. All shareholder-elected members of the Board of Directors stand for election each year. All employee-elected members stand for election every fourth year according to current legislation. The age limit is 70.

The Board of Directors meets 6 to 8 times a year and on an ad-hoc basis if necessary. The Chairman evaluates the work of the Board of Directors on an ongoing basis. In 2010/11 the Board of Directors met on 10 occasions.

The members of Chr. Hansen's Board of Directors, except for members elected by the employees, have undertaken to, no later than 12 months after their appointment, purchase shares

MAIN ELEMENTS OF THE GROUP'S INTERNAL CONTROL AND RISK MANAGEMENT IN CONNECTION WITH ITS FINANCIAL REPORTING

The purpose of Chr. Hansen's internal controls and risk management systems in relation to the financial reporting process is to ensure that external financial statements are presented in accordance with IFRS as adopted by the EU and additional Danish disclosure requirements for annual reports of listed companies, and to ensure that the financial statements give a true and fair view free from material misstatement.

Our internal control and risk management system ensures that material errors or inconsistencies in the financial statements as far as possible are identified and corrected. The internal control and risk management systems comprise the following areas:

- Control environment
- Risk assessment
- Control activities
- Information and communication
- Monitoring

CONTROL ENVIRONMENT

The Board of Directors has set up an Audit Committee that will assist the Board of Directors in supervising the financial reporting process and the efficiency of the company's internal control and risk management systems. The Executive Management is responsible for maintaining efficient controls and an efficient risk management system. The Executive Management has implemented the controls necessary to address the risks identified in relation to financial reporting.

The composition of the Board of Directors, the Audit Committee and the Executive Board ensures the relevant competencies with respect to internal controls and risk management in relation to the financial reporting process. Powers and responsibilities are defined in the Board of Directors' instructions to the Executive Board. The Board of Directors approves the policies for Business integrity, Quality & Product Safety, Knowledge, People & Organization, Finance & IT, Communication as well as Chr. Hansen's mission, vision and corporate values. The Executive Board approves all other policies and regularly briefs the Board of Directors of such policies. The relevant functions at Chr. Hansen issue guidelines and monitor the application of all policies and procedures. Chr. Hansen's

accounting policies are set out in the Chr. Hansen financial reporting manual, which is available to all employees.

RISK ASSESSMENT

The Board of Directors and the Executive Board regularly assess risks that Chr. Hansen is exposed to, including risks related to financial reporting. The Audit Committee reviews certain high-risk areas at least once a year, including the following:

- Significant accounting estimates
- Material changes to the accounting policies
- Fraud risk assessment

At least once a year, the Executive Board and the Audit Committee consider whether the current internal control environment is effective in relation to the risks identified in the financial reporting process.

CONTROL ACTIVITIES

The Group Accounting skills are reviewed on an ongoing basis in order to ensure an appropriate and satisfactory control environment. All regional finance and IT functions report directly or indirectly to central functions. Central controlling functions are responsible for controlling the financial reporting from the parent company and the subsidiaries.

Chr. Hansen has introduced standards for the internal controls relating to financial reporting. These standards are intended to ensure a certain minimum level of internal controls in Chr. Hansen companies, thus making the control environment more efficient. The internal control standards are focused on separating functions and on detective and preventive controls. Chr. Hansen companies are subject to ongoing controls by a central unit from Group Accounting in order to ensure an appropriate control environment.

The Audit Committee has assessed the need for an internal audit function and decided not to establish one at present, as the current internal control and risk management systems and processes are deemed sufficient.

INFORMATION AND COMMUNICATION

Chr. Hansen's financial reporting manual and other reporting instructions, including accounting instructions as well as policies for credit-granting and capital expenditure, are updated on a regular basis and are available at the Chr. Hansen intranet, where they can be accessed by all employees.

The IT systems are secured with general IT controls, and the ERP systems furthermore contain automated application controls that are reviewed on an ongoing basis.

MONITORING

Financial reporting is controlled on an ongoing basis and procedures have been established to check and test such reporting. Procedures have also been set up to ensure that any errors are communicated to and corrected by the reporting companies. The internal controls are subject to ongoing reviews in connection with the regular control inspections at subsidiaries. Conclusions from these reviews are submitted to the Executive Board, the Audit Committee and the external auditors. Chr. Hansen's internal financial reporting ensures an effective process to monitor the company's financial results, making it possible to identify and correct any errors or omissions.

The monthly financial reporting from the respective companies is analyzed and monitored by Group Accounting in order to identify any significant weaknesses in the internal controls, failures to comply with procedures and the financial reporting manual, etc. The Audit Committee follows up on a regular basis to see that any significant weaknesses in the internal controls are eliminated and that any errors or omissions in the financial statements identified and reported by the auditors are corrected, including that controls or procedures are implemented to prevent such errors or omissions.
