## Safe harbor statement

This presentation contains forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance.

Forward-looking statements are other than statements of historical facts. The words "believe," "expect," "anticipate," "intend," "estimate," "outlook," "will," "may," "continue," "should" and similar expressions identify forward-looking statements.

Forward-looking statements include statements regarding: objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; developments of the Company's markets; the impact of regulatory initiatives; and the strength of competitors. The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties.

Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and may be beyond our control. Such risks, uncertainties, contingencies and other important factors could cause the actual results of the Company or the industry to differ materially from those results expressed or implied in this presentation by such forward-looking statements.

The information, opinions and forward-looking statements contained in this presentation speak only as at the date of this presentation, and are subject to change without notice. The Company and its respective agents, employees or advisors do not intend to, and expressly disclaim any duty, undertaking or obligation to, make or disseminate any supplement, amendment, update or revision to any of the information, opinions or forward-looking statements contained in this presentation to reflect any change in events, conditions or circumstances beyond what is required by applicable law or applicable stock exchange rules and regulations.

By viewing this presentation, you acknowledge and agree to be bound by the foregoing limitations and restrictions.

## Strategic \& operational highlights 2016/17

No. 1
Nature's no. 1 strategy launched in September 2013 with the ambition to pursue growth opportunities in the current core businesses and within new microbial solutions. Strategy reaffirmed at Capital Market Day in April 2016.

- Bioprotection: Strong growth of approx. 30\% YTD, with momentum in all segments. Growth of $40 \%$ in Q3 driven by both Europe and North America. Next generation under development with expected launch in Q1 of FY18.
- Plant Health: Penetration continued with strong growth driven by encouraging field trial results. Pipeline developing as planned.
- Human Microbiome: Expanded our strain library with lead candidates targeting gastrointestinal, immune and metabolic health. Both for internal innovation efforts and for partners looking to develop next generation probiotics.
- Capacity: Expansion of production capacity for cultures in Copenhagen progressing as planned. First industrial production expected in November.
- Animal Health: Strong growth primarily driven by winning customer projects. Market conditions are normalizing in most areas. Integration of NPC ahead of schedule and contributing to margin progression in Q3. Unique product launch in poultry to differentiate offering.
- Natural Colors: Profitability improving driven by ongoing optimization initiatives including margin management.

## Regional performance YTD 2016/17

North

LATAM — 13\%** APAC $\qquad$

- Strong growth in natural colors, animal health and plant health
- Good growth in cheese, fermented milk and enzymes, while probiotics was unchanged from last year
- Momentum slower due to economic turmoil
- Conversion to natural colors progressing as expected

28\%*

## America

- Strong growth across all segments except fermented milk and enzymes which showed modest growth
- Growth in cheese partly driven by conversion projects
- Very strong momentum in bioprotection

## 11\% <br> Organic growth <br> Organic growth

16\%*

- Strong growth in fermented milk including probiotics, human health and animal health
- Solid growth in cheese and enzymes, while natural colors showed good growth
- Strong growth in fermented milk including probiotics was mainly driven by China

| ROIC ex. goodwill |  |  | $45.0 \%$ | $41.6 \%$ |

## Quarterly organic growth

## Organic growth

- Volume/mix 9\%. Strong growth in cheese, fermented milk, meat and wine. Solid growth in probiotics, while enzymes showed good growth
- Growth of approximately $30 \%$ in bioprotection driven by the existing segments
- Q3: Volume/mix 10\%. Strong growth in cheese, fermented milk, meat and wine. Solid growth in probiotics and enzymes. Slight negative impact from EUR-based pricing

## EBIT margin

- Margin up 0.8\%-point on 2015/16
- Driven by scalability in production
- Partly offset by initiatives to secure full utilization of existing capacity and higher R\&D activity
- Q3: Margin up 0.3\%-point on 2015/16 driven by scalability in the operating cost base and improved scrap levels. Partly offset by initiatives to secure full utilization of existing capacity and an unfavorable product mix

## Quarterly organic growth

## Organic growth

- Volume/mix 12\%
- Strong growth in animal health driven by silage and poultry, while dairy cattle declined. Strong growth in plant health and solid growth in human health driven by both dietary supplements and infant formula in APAC
- Q3: Strong growth in Animal health and plant health, while human health showed solid growth driven by infant formula
- Market conditions for animal health have normalized in Europe and are improving in North America

## EBIT margin

- Margin down 0.8\%-point on 2015/16
- Driven by increased activity to support strategic initiatives and higher depreciation \& amortization related to acquisitions
- Partly offset by lower scrap levels in human health production, insourcing of NPC products and discontinuation of NPC traded products
- Q3: Margin up 1.1\%-points on 2015/16 driven by discontinuation of NPC traded products (will reverse in Q4) and insourcing of NPC products. Partly offset by higher depreciation \& amortization related to acquisitions and increased R\&D activity

## Quarterly organic growth

Organic growth

- Volume/mix 5\% and price 4\%. Price increases reflecting higher raw material prices and general price increases
- Strong growth in natural carotene, annatto and anthocyanin, while carmine volume declined due to profitability initiatives. Growth was anchored across most industries and driven by North America and EMEA
- Q3: Volume/mix 5\%. Price 1\%. Negative price growth in carmine was offset by higher annatto prices

## EBIT margin

- Margin up 1.7\%-points on 2015/16
- Driven by the ongoing optimization initiatives including margin management, operating efficiencies and positive timing from inventories
- Q3: Margin up 1.7\%-points on 2015/16
- Driven by margin management and positive mix from coloring foodstuff

## Interim dividend of EUR 100 million in 2016/17

## Organic growth and EBIT margin history

## Definitions

## Organic growth

Adjusted organic revenue growth is calculated based on the reported International Financial Reporting Standards revenue adjusted for sales reductions (such as commissions and sales discounts), further adjusted for acquisitions and divestitures in order to standardize year-on-year comparisons and measured in local currency.

## Special items

Special items comprise material amounts that cannot be attributed to recurring operations, such as income and expenses related to divestment, closure or restructuring of subsidiaries and business lines from the time the decision is made. Also classified as special items are, if major, gains and losses on disposal of subsidiaries not qualifying for recognition as discontinued operations in the income statement. Material non-recurring income and expenses that originate from prior years or from projects related to the strategy for the development of the Group and process optimizations are classified as special items.

## EBIT (Earnings before interest \& taxes)

EBIT is calculated as profit for the period before financial income and expenses and corporate income taxes. EBIT also excludes income and expenses from discontinued operations.

## Free cash flow

Free cash flow is a measure of financial performance calculated as operating cash flow less net capital expenditures.

## Invested capital

Invested capital is calculated as intangible assets, property, plant and equipment, trade receivables and inventories less trade payables.

ROIC (return on invested capital) excluding goodwill
Operating profit as a percentage of average invested capital excluding goodwill.
